

# RGCS Phryll v2 — Crystal Compatibility Sheet

Crystal CRY-DEMO-120 · design PHV2-CRY-DEMO-120

## Entered dimensions

|                     |              |
|---------------------|--------------|
| crystal ID          | CRY-DEMO-120 |
| length (mm)         | 120          |
| top diameter (mm)   | 26           |
| base diameter (mm)  | 39           |
| max body width (mm) | 39           |
| facet count         | 6            |
| top angle (deg)     | 60           |
| base angle (deg)    | 51.84        |
| mass (g)            | 140          |
| Eye z (mm)          | 62.5         |
| Eye source          | demo_entered |

## Generated custom cone (crystal envelope + clearance)

|                                |               |
|--------------------------------|---------------|
| inner top / base diameter (mm) | 27.32 / 40.32 |
| outer top / base diameter (mm) | 30.92 / 43.92 |
| height (mm)                    | 120           |
| wall (mm)                      | 1.8           |
| clearance (mm)                 | 0.66          |

## Clearance table

|                    |      |
|--------------------|------|
| fit pass           | PASS |
| min clearance (mm) | 0.66 |
| max clearance (mm) | 0.66 |
| stations checked   | 96   |

## Source profile comparison (advisory; M2 text and mesh profiles kept separate)

| profile | kind               | advisory fit | min margin (mm) |
|---------|--------------------|--------------|-----------------|
| M2_TEXT | compatibility_text | does not fit | -0.66           |
| M2_MESH | mesh_decode        | fits         | 0.58            |
| L_MESH  | mesh_decode        | fits         | 1.601           |
| L2_MESH | mesh_decode        | fits         | 2.986           |
| L_TEXT  | compatibility_text | does not fit | unavailable     |

## Claim boundary

This sheet documents crystal fit geometry and generated CAD dimensions. It does not assert physical output.
